

Data Sheet- EnduraBol Cattle

Presentation

A 107g intraruminal bolus of approximately 70mm x 26.5mm. Containing the following trace elements and vitamins.

Nutritional Additives	Per kg
Copper (Cupric Oxide)	204,421 mg
Zinc (Zinc Oxide)	133,606 mg
Zinc (Zinc Sulphate)	37,941 mg
Manganese (Manganese Sulphate)	105,905 mg
Iodine (Calcium Iodate)	6,573 mg
Selenium (Sodium Selenite)	3,154 mg
Cobalt (Cobalt Carbonate)	2,992 mg
Vitamin A	7,024,266 iu
Vitamin D ₃	1,404,853 iu
Vitamin E	14,008 iu

Uses

A dietetic complementary feed for long term supply of grazing cattle, providing them with a proportion of trace elements and vitamins which are not adequately supplied by grass. The boluses lie in the reticulum at the forward base of the rumen, slowly dissolving from a constant surface area, providing a continuous and sustained supply of trace elements and vitamins to the animal for up to 8 months.

Before using, it is recommended to seek advice from your nutritionist, animal health advisor or veterinarian, regarding 1) the balance of trace element in your ration and 2) the trace element status of your herd. To avoid any complication caused by over supplementation.

Doses and Administration

Administer two EnduraBol Cattle per animal. EnduraBol Cattle boluses are suitable for cattle over 150kg liveweight.

Load both boluses into the applicator, flat end first ensuring both boluses are securely held in the chamber. Place the applicator into the centre of the cow's mouth, to the back of the tongue into the top of the gullet. Ensuring the cow's head and neck is extended and straight, squeeze the trigger, releasing the boluses. Allow time for the animal to swallow. Remove the applicator carefully. DO NOT use force at any point to avoid damage to the soft tissue or teeth.

Contra-Indications and Warnings

There is no need to supplement with additional Copper, Cobalt or Selenium during the active life of EnduraBol Cattle.
Meat and Milk withholding – Nil

Pharmaceutical Precautions

Do not administer to non-ruminating calves or to cattle weighing less than 150kg. Store in cool, dry place and out of direct sunlight. Reseal part used packs. Do not drop onto hard surfaces. Keep out of children's reach.

Legal Category

Dietetic complementary feedstuff.

Pack Quantities

Packed in units of 20 boluses, enough for 10 cattle doses.
